SUMMARY

Senior Product Designer with 9+ years designing end-to-end digital experiences across the customer growth funnel acquisition, onboarding, first-conversion, retention, and re-engagement for consumer, D2C e-commerce, and high-scale enterprise SaaS products. Skilled at translating ambiguous customer and business problems into clear design strategy using research, behavioural data, and experimentation. Track record partnering closely with Product, Growth, Marketing, Analytics, and Engineering to ship work that moves measurable outcomes conversion, retention, adoption, and task success not just polished UI. Experienced building scalable design systems and frameworks, and mentoring designers. Based in Dubai, UAE, available immediately.

GROWTH & PRODUCT DESIGN HIGHLIGHTS

- **Growth Funnel Design:** Built and optimised custom Shopify storefronts end-to-end for two D2C lifestyle/fragrance brands, improving checkout conversion by ~18% and reducing cart abandonment by ~12% through iterative UX and merchandising fixes.
- **Experimentation & Data-Driven Design:** Used heatmaps (Hotjar/Clarity) and GA4 to identify funnel friction and guide iteration; planned paid acquisition campaigns on Meta & Google Ads that improved ROAS from 1.5x to ~1.8x, and ran usability testing that drove a 15% lead-conversion uplift on an enterprise dashboard redesign.
- **Conversational AI & Engagement Design:** Designed structured AI agent outputs and next-best-action prompts that lifted feature adoption ~25% and improved task success ~25% for 500+ daily active users in a high-consideration healthcare workflow.
- **Design Systems & Scale:** Architected a 3-layer, token-driven design system across 50+ screens; partnered with engineering through implementation to protect interaction detail, reduce UI inconsistencies, and accelerate handoff patterns built for teams to reuse at scale.
- **Cross-Functional Partnership & Mentorship:** Partnered directly with Product, Engineering, Marketing, and business stakeholders from problem discovery through launch and iteration, spanning enterprise SaaS, healthcare AI, and D2C e-commerce; mentored product designers on craft, strategy, and case studies.

WORK EXPERIENCE

E-Commerce Manager & Product Design Consultant — Aj Collection, As-Safeer Fragrances & D2C Consulting

D2C E-commerce · Shopify & WordPress · Fragrance & Lifestyle · Bengaluru, IndiaAug 2024 – Sept 2026

- Co-founded As-Safeer Fragrances, a D2C lifestyle/fragrance e-commerce brand, and served as E-Commerce Manager for Aj Collection, alongside consulting engagements including Aroma, Shimmers & Fragrances — built and managed custom Shopify and WordPress storefronts end-to-end across all three brands.
- Optimised checkout flow and product discovery across the brands, improving conversion rate by ~15–18% and reducing cart abandonment / checkout drop-off by ~10–12%.
- Analysed user behaviour through heatmaps (Hotjar/Clarity) and GA4 to identify friction on checkout and product pages, translating findings into iterative UX and merchandising fixes.
- Planned and ran paid campaigns on Meta and Google Ads (monthly budgets of ~₹50,000–₹70,000), improving ROAS from 1.5x to ~1.8x and lifting click-through and conversion rates through targeting and creative optimisation.
- Optimised product listings, descriptions, and metadata for SEO across 40+ SKUs, growing organic search traffic by ~30% and organic-driven orders by ~15%.
- Managed inventory and coordinated with fulfilment partners, maintaining ~95% on-time order fulfilment and cutting stockout incidents by ~20%; set up GA4 tracking and reporting dashboards to monitor traffic, conversion, and campaign performance across all brands.

Senior Product Designer — Nextiva

Healthcare AI · UCaaS · Design Systems · Bengaluru, India (US company)Jul 2024 – Jun 2025

- Led interaction design for AI-powered patient-scheduling and care-coordination workflows in regulated healthcare; designed structured LLM outputs and next-best-action prompts that improved SLA adherence and clinical clarity for 500+ daily active users.
- Defined the interaction model for an AI-assisted agent workspace and Teams contact-centre companion app that consolidated fragmented tools reduced context-switching and lifted feature adoption by ~25%.
- Architected a 3-layer, token-driven design system spanning 50+ screens; partnered with engineering throughout implementation to preserve interaction detail and accelerate design-to-development handoff.
- Ran end-to-end research — stakeholder interviews, workflow analysis, usability testing to define problems and validate solutions; improved task success rates by ~25% and shipped full dark mode meeting WCAG 2.1 AA.

Product Designer — LTIMindtree (Client: Shell)

Enterprise SaaS · Data-Intensive Dashboards · Oil & Energy · Bengaluru, IndiaNov 2022 – Dec 2023

- Redesigned enterprise Power BI dashboards and reporting workflows for Shell Lubricants, translating complex multi-role data into decision-ready visualisations.
- Ran usability testing and A/B experiments that increased lead conversion by 15%, using behavioural insight to prioritise design changes.

Product Designer II — JLL Technologies

Investment Data Platform · FinTech / PropTech · Bengaluru, IndiaNov 2020 – Nov 2022

- Led end-to-end UX research and design for a digital investment portal; conducted user interviews, journey mapping, and competitive benchmarking to inform the onboarding and platform redesign.
- Designed wireframes and high-fidelity prototypes for asset onboarding, fund management, and investment workflows.
- Built a scalable component library and design system in Figma; documented principles and reusable patterns for consistency across multiple product lines.
- Ran usability testing and user research to validate designs pre-development, improving engagement metrics through user-centred iteration.

Senior UI/UX Designer — 3Embed Software Technologies

SaaS · Healthcare, On-Demand & D2C Quick-Commerce Applications · 20+ Products · Bengaluru, IndiaOct 2017 – Oct 2020

- Designed end-to-end experiences and wireframes for 20+ SaaS, mobile, and web products spanning healthcare, on-demand services, and D2C e-commerce, including quick-commerce style apps built around fast browse-to-cart discovery, real-time order tracking, and repeat-purchase flows.
- Designed mobile-first ordering journeys for on-demand and quick-commerce products product discovery, cart, checkout, and delivery-status screens optimised for high-frequency, low-friction repeat use.
- Conducted user research, usability testing, and built user personas to inform design decisions across product lines, including consumer behaviour on fast-delivery and D2C shopping apps.
- Collaborated with stakeholders and project managers to translate business requirements into engaging, user-friendly interfaces.

UI/UX Designer & Developer — Limitscale Technologies Pvt. Ltd.

Web & Mobile Product Design · Frontend Development · Bengaluru, IndiaJan 2017 – Sep 2017

- Designed wireframes, flows, prototypes, and high-fidelity mockups for 8+ web and mobile applications; ran 3+ concurrent projects from client consultation to launch.

TOOLS & SKILLS

Growth & Experimentation: Growth funnel design (acquisition, activation, conversion, retention) · A/B testing · Conversion rate optimisation · Behavioural data analysis · KPI definition & metric tracking · Landing-page & campaign experiments

User Experience & Research: User research · Usability testing · User personas · Journey mapping · Competitive analysis · Heuristic evaluation · User-centred design · Product discovery

Design & Interaction: Interaction design · Information architecture · Wireframing · Prototyping · Visual design · Mobile-first & responsive design · Design strategy · User flows

Design Systems & Tools: Design systems · Component libraries · Token-driven design · Figma (Expert) · Adobe XD · Miro · Storybook · Figma Tokens · Design-to-code workflows

Additional: Accessibility (WCAG 2.1 AA) · Screen reader testing · Internationalisation / Localisation (Arabic RTL) · Stakeholder communication · Cross-functional collaboration · Mentorship

Tools: Figma, Adobe XD, Miro, Framer, Storybook, Jira, Notion, Claude, ChatGPT

EDUCATIONAL BACKGROUND

Bachelor's Degree — Presidency College, Bangalore University, 2013

Diploma in Graphic / Web Design — DreamZone School of Creative Studies, 2014–2015

Google UX Design Certificate — Coursera
